

13 October 1982

MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: Soviet Export Gas Pipeline

1. Charlie Wick asked me for any photography we may have about the Gulag prison camps in the area of the pipeline and any map we have showing the camps on the pipeline route. This is for a prospective meeting between the President and Lane Kirkland.

2. Before I went off to Africa, some material was assembled on this subject but I'm not certain that it was ever delivered to Weinberger who had asked for it. I know it was discussed orally at breakfast before I left but this correspondence which I found on my return raises uncertainty in my mind as to whether the prepared material was ever delivered.

3. In any event, I would appreciate it if you could assemble everything that's available so that we can decide what can be provided in response to Wick's request and also what I might review with Weinberger at breakfast on Friday.

William J. Casey
